

Welcome to Confluence at DESY

Atlassian Confluence is a wiki system with fine grained access controls and very comfortable editing functions. Create, share and discuss your files, ideas, minutes, specs, mockups, diagrams, and projects.

Users who are already registered at Confluence can continue to [Log in](#).
If you or your group need access to Atlassian feel free to contact your DESY Namespace Administrator.

For further instructions, please refer to our [documentation](#) (German only). If you encounter any problems or need support with using the software, please create a ticket in our email support list at it-atlassian@desy.de.

In order to change your default landing page visit [settings](#) and modify your Site Homepage to "Dashboard" or whatever your favorite page might be.
