

Data samples

Reconstructed .root files from 2018 can be found here (**Probably not up-to-date!**):

/nfs/dust/ilc/group/flhcal/AHCAL_Testbeam_SPS_May2018/reco_rootfiles/

(the steering file used for the reconstruction is in the same folder as the individual .root files)

Full reconstruction campaign with software v.4.14-01 to be started soon - August 2020
