

Team Higashi 2018

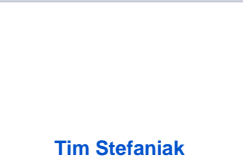

Welcome!

Welcome to the wiki page of team Higashi (HIGgs And Susy Higgs) , part of the DESY summer student program 2018!

This wiki system will provide a common spot to collect all the useful material for the summer student projects and to use it as a logbook to monitor our progress during the course of your stay here at DESY.

About us

This is the Wiki page of team *Higashi*, one of the theory teams part of the summer student program 2018 at DESY.

The acronym *Higashi* was suggested by the volcanic mind of S. Liebler ([link](#)), the renowned author of *SusHi* and *SusHiMi* ([link](#)). As you can now probably would be able to guess, Higashi is a japanese food as well ([Wikipedia entry for Higashi](#)).
